ORGANIZATIONAL THEORY AND BEHAVIOUR - University of Calicut

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Complexity - Wikipedia

Workplace politics is the process and behavior in human interactions involving power and authority. It is also a tool to assess the operational capacity and to balance diverse views of interested parties. It is also known as office politics and organizational politics. It is the use of power and social networking within an organization to achieve changes that benefit the organization or ...
