Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.

Livestock revolution enabled Pakistan to significantly raise agriculture productivity and rural incomes in 1980s. Economic activity in dairy, meat and poultry sectors now accounts for just over 50% of the nation's total agricultural output. The result is that per capita value added to agriculture in Pakistan is almost twice as much as that in Bangladesh and India.

The organisation Federated Farmers continued their fear campaign today in a Herald editorial. Their anonymous spokesman made their demand that "Farmers should know they are still appreciated". Of course, in the Federated Farmers usual style, their unsophisticated propaganda managed to avoid actually discussing the underlying issues, the similarities between the urban and the rural ...

Route 305 was never legislatively defined. However, there is a portion of a route that is known to AASHTO as I-305 for funding purposes. This segment, from the Route I-80/US50 interchange in West Sacramento to the Route 99/US50 interchange was originally part of I-80. It was redesignated as chargeable I-305 in May 1980 (and that designation remains on the books at AASHTO).
