This change notice redefines the outer most ring of ... view more This change notice redefines the outer most ring of ground pins in the 11.5x13 BGA ball map to be redundant ground pins that are non-critical to function (NCTF). NCTF is a new pin definition indicating that while the pins shall continue to be connected to host and device ground, they are redundant such that they allow for ...

GENERAL INFORMATION: Check with the resident officer in charge of construction, or the NAVFAC project manager assigned to your project to determine if an appropriate NAVFAC Regional Guide Specification should be used in your project.

### **UFGS, NAVFAC Regional Specifications & PPV Graphics | WBDG**

In computer programming, an application programming interface (API) is a set of subroutine definitions, communication protocols, and tools for building software. In general terms, it is a set of clearly defined methods of communication among various components. A good API makes it easier to develop a computer program by providing all the building blocks, which are then put together by the ...
