My cat is drooling excessively (as in there are drool puddles all over the couch-everywhere). She doesn't seem to be - Answered by a verified Cat Veterinarian We use cookies to give you the best possible experience on our website.

My cat is drooling excessively (as in there are drool puddles!)

My dog is suddenly drooling excessively (she leaves puddles). She eats without problems, and has not been vomiting. ... My dog is suddenly drooling excessively (she leaves puddles). She eats without problems, and has not been vomiting. ... there was a puddle of drool where he was laying. he's about a year old. The last thing he had to eat was ...

My dog is suddenly drooling excessively (she leaves puddles).

If excessive drooling continues after the teething process, parents may want to consult a physician or dentist. School-aged children who drool may become victims of teasing and bullying. Some children who drool a lot are not even aware or discomforted by it. Excessive drooling at this age wets the face and clothes and can cause bad breath.

All About Drooling - Super Duper Publications

My cat is drooling puddles. Is this normal? ... However, drooling that is constant is a sign of trouble. It could be an indicator of gingival disease, a dental abscess, or other mouth problems. Drooling can also be a sign of nausea, pain, kidney problems, or could be an indicator that your kitty has ingested a toxin or poison ...

Puddle of Drool by DLM or Cowgirl Angels of Slash He was spread-eagle on the bed, eyes pointed to the ceiling, but not really seeing it. Bound to the bed, not by cuffs or straps, but his master's voice. 'Don't move.' And he always did what his master said. His cock ached, trapped in the constricting leather harness.

the back is out cold, his chin stuck in a puddle of drool that smears the print in his book. A girl applies what must be the third coat of polish to her blood-red fingernails, asphyxiating us all. Others just gaze off into the distance with a fixed stare, playing with their five-pound gold chains, probably deciding

A boy in the back is out cold, his chin stuck in a puddle

Excessive drooling is a very common quirk, and in fact, excessive saliva production can be healthy. Saliva bathes the teeth and gums, washing away accumulated food and bacteria. The enzymes in saliva also help break down the carbohydrates in food, operating as a head start in the digestive process.
