

**stylistics of the english pdf**

Stylistics, a branch of applied linguistics, is the study and interpretation of texts of all types and/or spoken language in regard to their linguistic and tonal style, where style is the particular variety of language used by different individuals and/or in different situations or settings. For example, the vernacular, or everyday language may be used among casual friends, whereas more formal ...

The term composition (from Latin com-"with" and ponere "to place"), in written language, refers to the body of important features established by the author in their creation of literature. Composition relates to narrative works of literature, but also relates to essays, biographies, and other works established in the field of rhetoric.
