

world cities beyond the pdf

Determining the world's largest cities depends on which definitions of city are used. The United Nations uses three definitions for what constitutes a city, as not all cities may be classified using the same criteria. Cities may be defined as the cities proper, the extent of their urban area, or their metropolitan regions.

List of largest cities - Wikipedia

A city proper is a locality defined according to legal or political boundaries and an administratively recognised urban status that is usually characterised by some form of local government. In some cases, cities proper may not include suburbs or even parts of the urban core whereas in other cases the boundaries may include non-contiguous urban settlements or even rural areas.

List of cities proper by population - Wikipedia

The Dead Cities are a group of around 40 villages in northern Syria that date to the 1st through 7th centuries CE. According to UNESCO, "the relict cultural landscape of the villages also ...
