Median income is the amount that divides the income distribution into two equal groups, half having income above that amount, and half having income below that amount. Mean income is the amount obtained by dividing the total aggregate income of a group by the number of units in that group. Mode income is the most frequently occurring income in a given income distribution.

Median income - Wikipedia

Globalization or globalisation is the process of interaction and integration among people, companies, and governments worldwide. As a complex and multifaceted phenomenon, globalization is considered by some as a form of capitalist expansion which entails the integration of local and national economies into a global, unregulated market economy. ...
