Weaning and Retraining. Unfortunately, screen time has replaced the outdoor time and become a kind of babysitter. Children used to play outside, where, in unstructured natural environments, they learned and practiced their social skills. And like the story of Susan and her son John, we need to get our children back to playing with Legos and toys that don't think for them!

To maintain the correct balance within the body, your urine can and does change pH, depending on what you've eaten (explained in detail in this post). This can be seen by testing urine pH (acidity) after eating different foods and is the basis of the mistaken belief that diet can "make the body alkaline".
