Occurrence. Often, leading zeros are found on non-electronic digital displays or on such electronic ones as seven-segment displays, that contain fixed sets of digits. These devices include manual counters, stopwatches, odometers, and digital clocks. Leading zeros are also generated by many older computer programs when creating values to assign to new records, accounts and other files, and as ...

In software, find first set (ffs) or find first one is a bit operation that, given an unsigned machine word, identifies the least significant index or position of the bit set to one in the word. A nearly equivalent operation is count trailing zeros (ctz) or number of trailing zeros (ntz), which counts the number of zero bits following the least significant one bit.

Draft of August 26, 2005 "75 We can regard the interior points (x, \hat{y}, \hat{z}) of this system to be those that satisfy the inequalities strictly: $x > \hat{0}$, $\hat{y} > \hat{0}$. Our goal is to show how interior-point methods can generate a series of such points that tend toward a solution of the
